\*\*The dues for initiated chapter members not living in the house are subject to change based on whether there is more than one empty room in the Kappa Delta house in the fall of 2025. One empty room is paid for by member dues but the rest of the cost is split amongst all initiated chapter members. Any initiated members living in the house will not have to pay the empty room fee or the common area maintenance fee. New members will not have to pay the empty room fee during their new member semester. Initiated members who are not living in the house were responsible for covering the cost of one empty room for the Fall of 2025. This came to be \$74 per member. The spring empty room cost will be determined by house occupancy come fall semester.
